**Aimfortech solutions Indore**

2022-present

4 Months

MAJOR PROJECT : -ECOMMERCE WEBISTE

Build using React , Redux and bootstrap.When a user adds a pair of shorts to their shopping cart, Redux can be used to manage the state of the cart and ensure that the cart is updated across all components in the application

PARATHA STORE
build using React , Redux and Material UI . you can order various partha's online .build using JSON.server.

SUPPORT DESK APPLICATION
This is full stack Application build on MERN Stack . where you can raise ticket to admin and update status . Login and Logout Functionality.

Minor Project : - NEWS Application

The News API is a web service that allows developers to retrieve news articles from various sources. React Context API is a way to manage global state in a React application, without the need for complex state management libraries like Redux.

CRUD OPERATION
 EXPRESS , MONGOOSE to save a database also we using postman to check a API.

Weather application
Building a weather application in JavaScript involves using an random images to retrieve weather data, parsing the data with JavaScript, and updating the HTML document with the relevant weather information.

10 Html and Css project UI atleast .
